

SAANA

Upholstery fabric SAANA is based on the similar idea as SAMMAL, with thinner lines and rhythm. Close to nature design and cozy touch of the material gives pleasure for all your senses.

SAANA has 11 standard colors, all which can be used conversely. The design can also be produced with same colors as JOLIE wool – and for your projects - with unique color combinations.

SAMMAL is designed and manufactured in Finland.

60% wool, 40% polyester
Fabric width 140cm
Dry clean / gentle wash 30°

SL 1
