

comfortable and customizable
TILDA, LINDA & MANU

TILDA

Steady and stabile TILDA is based on simple foot–board–cushion structure.

TILDA enjoys itself at home, but because of it's solid structure and durable materials TILDA can perfectly be used also in public premises. Standard TILDA has it's wooden legs joined to circular plywood board, but the height of the legs, the form and size of the board and the dimensions of the cushion are variable.

Size: Height 35cm

Diameter: 59cm

Foot: birch

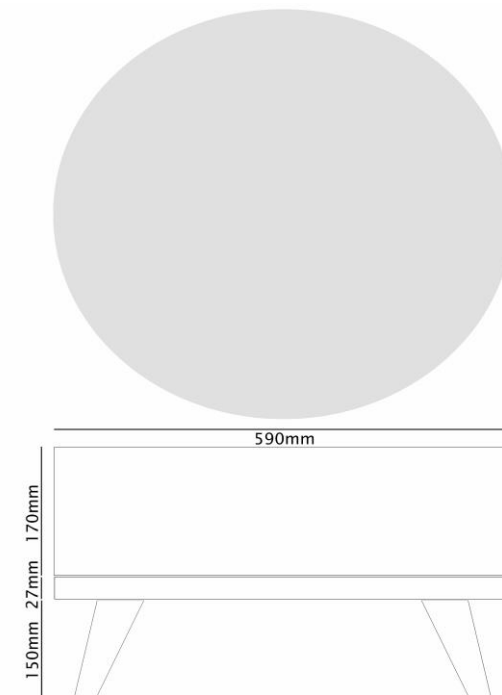

Board: birch plywood

Finishing: wood wax; neutral or white (translucent) + special colors

Cushion: foam HR35 + polyester

Upholstery fabric: SAMMAL or SAANA 60%vwool 40%polyester; SL1, Martindale 57000

For TILDA, we recommend uphostery fabric SAMMAL or SAANA with high abrasion resistance.

MANU

MANU is Tildas imposing cousin. Standard MANU has it's wooden legs joined to circular plywood board, upholstery fabric stapled under the board.

Size: Height 35cm

Diameter: 59cm

Foot: birch

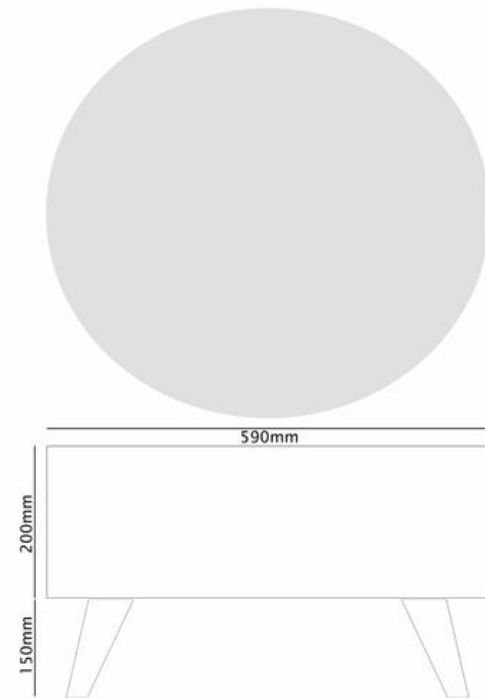

Board: pine plywood

Finishing: wood wax; neutral or white (translucent) + special colors

Cushion: foam HR35 + polyester

Upholstery fabric: KIVIKKO 60% TreviraCS 40%polyester; SL1, Martindale 27000

For MANU, we recommend upholstery fabric KIVIKKO.

LINDA

LINDA is Tilda's slender sister. Linda is perfect at home, for example as hallway bench.

Size: Height 45cm

Diameter: 53cm

Foot: birch

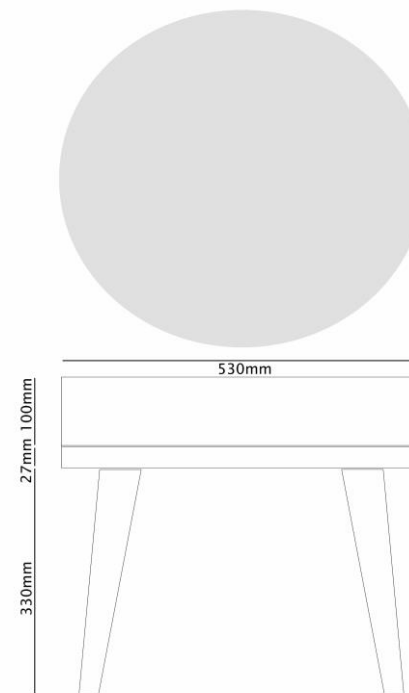

Board: birch plywood

Finishing: wood wax; neutral or white (translucent) + special colors

Cushion: foam HR35 + polyester

Upholstery fabric: SAMMAL or SAANA 60%vwool 40%polyester; SL1, Martindale 57000

For LINDA, we recommend upholstery fabric SAMMAL or SAANA, which have high abrasion resistance.

TILDA, LINDA and MANU combine a hilarious group of three footsools.
Furnitures based on simple foot-board-cushion structure are
customizable and comfortable.

Standard models have wooden legs joined to circular plywood board, but the
form and size of the board, the height of the legs as well as the finishing of the
wooden structure is variable.

TILDA, MANU and LINDA are produced in Finland.
